research assistant

Established

2022-2023 Fall semester

# Curriculum and Subfields

The curriculum covers a wide range of psychological subfields, including experimental psychology, developmental psychology, clinical psychology, social psychology, and psychometrics.

## 1 Experimental Psychology

Focuses on the scientific study of behavior and cognitive processes.

## 2 Developmental Psychology

Examines how people grow, develop, and adapt throughout their lives.

## 3 Clinical Psychology

Deals with the assessment, diagnosis, and treatment of mental disorders.

## 4 Social Psychology

Studies how individuals' thoughts, feelings, and behaviors are influenced by others.

# Practical Learning Opportunities

Students have the opportunity to reinforce their theoretical knowledge through modern laboratories and practical research experiences. Currently, there are 3 different labs within the department including the social, developmental and cognitive subfields of psychology.

# Education Program and Language of Instruction

The department offers a full-time education program, and the language of instruction is Turkish, however for ERASMUS students only, our department offers English courses. For the list of offered English courses, please see the attachment in e-mail.
